

# Joseph Arthur, Chemical

Taking my medicine  
Changing the way i am  
I don't know where i been  
But i was well behaved  
I don't know who you are  
Coming out of my scar  
Driving my crashing car  
That needs a coat of paint  
Chemical  
Up and up away i go  
Out of my head  
I'm putting myself in jail  
I'm hoping to see you fail  
I'm flipping my head and tail  
Over  
I don't know the way  
Over  
I'm throwing up what i drank  
No one here i would thank  
I feel like a shark that's caught  
In a goldfish tank  
Swallowing a thousand pills  
Trying to change how i feel  
There's just to much time to kill  
Between all my mistakes  
Chemical  
Up and up away i go  
Out of my head
