

Josh Rouse, Flair

You want me to, I will
The older I get, I spill blame
And I lived there six months
The past is all I'm driven for
I'm driven for

And I can't recall a name
Faces are the same to me
The same you see
And I would fake it for you
There's no where near the truth to say
The truth to say

Silly simple lies
They made a human being
Out of you
And I can sympathize
I've always been the one that's there with you
Don't
Lose that
Flair
Don't (and I can sympathize)
Lose that (I've always been the one that's there)
Flair (for you)
If you want me to, I will (flair)
Flair
Flair
Flair
Want me to
