

Josh Rouse, I Just Want To Live

Had the operation
Get myself unsick
Silence all the surgery
I heard the needle prick
And just as I went under
I saw the nurses scream
"Doctor we've lost another
To this here surgery"
And the pain don't stop for me
And a gold day shot
Is what I need

And it's all I really want to live
And it's somewhere to begin
I feel as if I've wasted all my life

I woke up in the morning
To see my parents gleam
Surprise was in the nurse's face
I made it through the sleep
They said "Relax, take it easy"
I never knew their names
It seems that God was watching
Was watching over me
And the pain don't stop for me
And a gold day shot
Is what I need

And it's all I really want to live
And it's somewhere to begin
I feel as if I've wasted all my life
And it's all I really want to live
And it's somewhere to begin
I feel as if I've wasted all my life
All my life
All my life
