

Josh Rouse, My Love Has Gone

Love ain't on my side
Love ain't special
Love ain't great
Lost in a fog
I'm using spite to find my way

Where did you go
I still curse you to this day
I miss the smile
I miss love laughing in my face

And when you come around
Baby I've been so blue
And I sleep with the TV on
It's the only sound, our love's gone

I will recover
I will hear it whispered back
Until then I keep one leg up off that track
Cause he tells you
You are still upon his mind
He'll get around to see you
When he finds the time

And when you come around
Baby I've been so blue
And I sleep with the TV on
It's the only sound, our love's gone

And when you come around
Baby I've been a fool
And I've already waited so long
So long my love has gone

And when you come around
Baby I've been so blue
And I sleep with the TV on
It's the only sound, our love's gone

And when you come around
Baby I've been a fool
And I've already waited so long
So long my love has gone

Ooh and I've already waited so long
