

# Josh Rouse, Sunshine

So what's with the long face  
Had a bad day  
It's not your fault things  
Don't go your way  
And you've been feeling  
Locked up inside  
There's just no reason  
To run and hide

And you must know  
That you're my little  
Sunshine  
Sunshine  
-ine

I've seen you come around  
Wearing that frown  
It doesn't suit you  
You're far too proud  
And we should visit  
A special place  
That brings a smile back  
Back to your face

And you must know (and you must know)  
That you're my little  
Sunshine  
Sunshine  
-ine

They're all insecure  
When you're near  
Sunshine  
Sunshine

So come on girl  
Shed your light  
So come on girl  
Show some light  
Come on girl  
Shoe some light  
Come on girl  
Show some light
