

# Josh Turner, In My Dreams

Some men dream of crossign oceans  
Some men dream one day to fly  
Spend their whole lifes out there floatin'  
On the water and the sky

Some men dream of buildign fortunes  
Some men dream of havin' fame  
Nothin' else is more important  
Than making money and a name

But in my dreams I see  
A little sky blue house  
Beside a small stream  
A front porch, screen door  
The sound of bare feet runnin' and cartoons  
In my dreams, your dreams come true

I come find you in your garden  
Pullin' weeds between the rows  
Trade a kiss for a glass of water  
Sit and watch what love can grow

In my dreams I see  
A little sky blue house  
Beside a small stream  
A front porch, screen door  
The sound of bare feet runnin' and cartoons  
In my dreams, your dreams come true

In my dreams your dreams  
Are the only things  
That really matter to me  
When you smile I smile  
What makes you happy makes me happy too  
In my dreams your dreams come true  
In my dreams your dreams come true
