

# Josh Turner, She'll Go On You

If you've got a little girl, you better take the time  
To go to her tea parties and give her a piggyback ride  
Be a dragon or a dinosaur every chance you get  
Cause one day you can bet

She'll go on you  
Before you turn can around  
And it's so lonley watchin' that  
Fast train leavin' town  
Better cherish her every second of your life  
Cause this preacious little thing that we call time  
She'll go on you

If you got a special one  
You better love her everyday  
Leave her notes on the fridgerater door  
And send her sweet bouquets  
Always be her confidant  
A safe place for her to rest  
Or that little thing you call you happiness

She'll go on you  
Before you turn around  
And it's so lonley watchin' that  
Fast train leavin' town  
Better cherish her every second of your life  
Take her in your arms and do her right  
She'll go on you

If you've got you momma there  
You outta thank her everyday  
For nursin' all your colds and  
Sittin' up when you'd stay out late  
Now all her hair is grey, and every year she's not as strong  
One of these days before to long

She'll go on you  
Before you turn around  
And it's so lonley watchin' that  
Fast train leavin' town  
Better cherish her every second of your life  
Cause before you get the chance to goodbye  
She'll go on you

Yeah this preacious little thing that we call life  
She'll go on you
