

Joss Stone, Stuck On You

Deeper I fall, the tighter you hold on
Won't let you know
The less love you show to me
The door that you closed
It just won't open
I don't wanna let go
But it's taking its toll on me

I don't like that you don't like my mind
It ain't changing
I can't care if you're here or there
It's alright
I'm just saving my heart
Cause leaving it with you ain't smart
See, the deeper I fall, the faster you run away

Every time we talk (Every time we talk)
(I'm falling into you, I...)
I get stuck on loving you
(Feel I'm stuck on you, stuck on you, babe)
Every time I fall (Every time I fall, I...)
(Fall right into you, I...)
I land in loving you (I'm landing in love you, babe)
(In love you, babe)
What will I do with you?
What will I do with you?

Been pushed to a core
I wish I can walk away
But there's something about you
Baby it's everything
Draw me in and makes me wanna need you
Need to want you, makes me wanna stay
But the deeper I fall, the faster you run away

Every time we talk (Every time we talk)
(I'm falling into you, I...)
I get stuck on loving you
(Feel I'm stuck on you, stuck on you, babe)
Every time I fall (Every time I fall, I...)
(Fall right into you, I...)
I land in loving you (I'm landing in love you, babe)
(In love you, babe)
(What will I do with you?)
I fall in love
(What will I do with you?)
I just can't get enough

Every time you get me close enough, I fall for you
It's everything you do
I just can't get enough
You got me truly, got me truly...

Every time you get me close enough, I fall for you
It's everything you do
I just can't get enough
You got me truly, got me truly...

Every time you get me close enough, I fall for you
It's everything you do
I just can't get enough
You got me truly, got me truly...
