

# Joy Division, Inside The Line

Hey you! You too!  
I could make the choice for you  
Dirt sticks close to you - it's all around me  
Everything I try to do  
I can't even seem to find the room to move

But you think you're number one  
Actors though the film has gone  
Crowded in a room for one  
Darkness when the lights are on  
Turn me on for good - it's so exciting  
Slogans on the wall don't need no advertising  
I can't even seem to find the room to move

Shackled up in fantasy  
Hoping for some time to breathe  
Suffocation comes too easy  
I just want some time to breathe  
Dirt sticks close to you - it's all around me  
Everything I do - they're always trying to crowd me  
I can't even seem to find the room to move

Watching every move I make  
Choice of one that's hard to take  
In fact it's just a big mistake  
The effects that make it feel like you  
Maggots run inside the line  
Ready for the perfect crime  
Say there is no right or wrong  
I don't know what's right or wrong  
I don't know what's right or wrong
