

Joy Electric, Candy Cane Carriage

Pink a snow sleigh ride
You are good, you were kind
And the magic book defines
To be young and in love
Is a gift laced in gold
All the years have made me scared
Just to give me something to share

Oh, what can I do when you break my heart in two?
Oh, what can I feel when you break my heart in pieces?

Better bees than bears
Is what you used to say
As the pollen filled the air
And the junebugs would sing
We made sun colored rings
And you kissed me in the trees
And you said you'd never leave
