Joy Electric, Monosynth

Like the sound of sliders Here we go Up and down the scales Everyone can see the spectacle The army of wires

With a stroke of magic hands I'll make your dreams come true...

With my monosynth (x5)

Notes go beep in perfect time and beat The metronome is our friend Oscillators join in unison For the grand conclusion

With a stroke of magic hands I'll make your dreams come true...

With my monosynth (x5)

With my monosynth Monosynth, monosynth With my monosynth

I could be so happy
If the world would not ignore me
In my place there will be stories
Of a boy who died in sorrow
With his monosynth

With his monosynth With my monosynth (x7)
