I'm sorry baby but I'm falling in love It's  
Time to tell your boyfriend that your not gonna be with him as much  
Why  
Cause you wanna come hang with j  
You wanna come see what I do on the daily  
Brr brr  
Text my phone and I'll call you maybe  
Baby can't you see that I'm different stop tripping ai you could be the queen of my kingdom  
Caught these feelings couldn't predict em  
Is It the love or Is It a symptom ?  
Cause I ask myself am I just sick or am I just losing wisdom  
I start to feel some kind of way when I see that gal on the photo system  
I don't wanna act like a victim nah  
I don't really care If you wanna go kick it with him  
go kick it with him  
I can tell by your attitude he getting mad at you  
She gets frustrated too  
Cause she wants J In the room  
And she knows for a fact that he could never fill my boots  
Nah he could never haha

Im begging  
Begging Put that fkn phone down baby  
And I don't  
I don't think I need you  
ima find a brand new lady
