

# Jubilee, Fuzz Are Down

Into the shattered heart of this city  
It's a one-way ride  
And one more time is good enough for me  
You're not your mother's son  
Now, it's a pity  
Pack your shame and roll  
Towards all the finest phonies you can see  
On and on it goes  
Down the rabbit hole  
Prescription's getting low  
Here it comes...Feels like dying

(Chorus:)  
Cut 'em all down  
Fuzz are down

It's the things that start spontaneous  
that end in the same way  
I just need something that don't need me  
Run amok for a rush  
Safe and unsound  
Only found this crutch  
Here it comes...Paralyzing

(Chorus)

So No-Ho,  
Check and mate  
Rock the boat  
But don't make waves  
Up is down  
Right is wrong  
How long now has it been this gone?

(Chorus)

It's all the same to me  
So fake it baby
