

Jucifer, Amplifier

I like becky's amplifier,
love to hear her sing
know she's getting higher and
she's vicious with a treat
overload intensifier

I like becky's amplifier,
love to hear her sing
know she can't get tired cause
she's burning out the week
pop rocks in her nostrils cause
she loves her pcp
plays it pretty loud and then
she's passed out on her feet
overload intensifier
overload intensifier

I miss becky's amplifier,
cold cause she's not around
got her hands on an eight ball,
now she's with-it in the ground
everyone she knew has come in

black clothes looking chic
so let's all switch on an amplifier
and rock out to the beat
overload intensifier
overload intensifier

I like becky's amplifier,
love to hear her sing
nothing to admire,
just some ice shut in her vein
buried like a hero but
remembered as a freak
so let's all switch on an amplifier
and rock out to the beat

I like becky's amplifier
I like becky's amplifier
I like becky's amplifier
I like becky's amplifier
