## Judas Priest, Down in Flames

My last days
We shall see
They are coming now
They're after me
They want blood
Yes it's true
Going quietly I just don't do

Going down in flames Going down in a blaze of glory Going down in flames Going down in a blaze of glory

In my heart I can say I'll be ready for what comes my way Don't be fooled I can tell Where I'm going to will serve me well

Going down in flames Going down in a blaze of glory Going down in flames Going down in a blaze of glory

Leaving my mark on the world when I've gone Spreading the word by the deeds that I've done

Going down in flames Going down in a blazing glory Going down in flames Going down in a blazing glory
