

# Jude, That's My Maria

The not-so-pretty princess was the clown of her class  
She made funny faces when they wouldn't let her pass  
There was danger of dying at every turn  
Don't get caught crying was all that she learned

And the not-so-pretty princess was the queen of her room  
And the world was in her closet while she dressed for the groom  
There were angels above her and pearls on the floor  
And nobody loved her outside of the door

And she's so pretty  
She will never be  
So pretty  
But she will never be  
She's so pretty to me, yeah  
She's so pretty and she will...

And the not-so-pretty-princess met a doctor with a knife  
He said there was a lot of ways he could change her life  
Then with the nose of a reindeer, the skin of a plum  
For now she'll be lovely forever though dumb

And she's so pretty  
She will never be  
So pretty  
But she will never be  
She's so pretty to me, yeah, yeah  
You're gonna see her places  
You're gonna see  
You're gonna see her and say  
hey - that's my maria
