## Judy Garland, Gotta Have Me Go With You

What a spot this, Not so hot this, Hey there shy one Come by my one Please don't rush off Want no brush-off I can't compel you To buy what I'd sell you But I'd like to tell you like so You wanna have bells that'll ring You wanna have songs that'll sing You want your sky a baby blue You gotta have me go with you Hey, you fool you Why so cool you When I'm ready to go steady You wanna have eyes that'll shine You wanna have grapes on the vine You want a love that's truly true You gotta have me go with you Why the hold out Have you sold out Time you woke up Time you spoke up This line I'm handin' you Is not a handout As a team we'd be a standout No doubt! You wanna live high on a dime You wanna have two hearts in rhyme You gotta have me go with you All the time
