Judy Torres, Come Into My Arms

The other night when we kissed You told me I was yours forever But when I woke up the next morning, you were gone Come back baby Come into my arms

You, you showed me how love could be Just show me how much you need You've always been by my side Oh, baby that's no lie 'Cause I, I've always been true to you I've always loved one, that's true Oh baby, can't you see that it's you You know that I love you so

Chorus:

Come into my arms baby, I know how you feel Come into my arms baby, this love for you is real I've always been too much for you it burns inside To wake up in the morning and you're not by my side Repeat (2x)

You, you shared your thoughts with me You shared your secrecies
And oh, how that makes me feel
Listen baby, lets be forever
'Cause I, I know I will always be good I know in my heart I should
I'll never ever do you wrong
My love for you is strong

Chorus (2x)
You were not by my side
Why aren't you here

We, we can't just let this die You gotta give our love a try Oh please be by my side Don't even begin to cry 'Cause I, I'm waiting to be with you Just give me the chance to prove That I'm the only one for you You know I was the one

Chorus (2x)
You were not by my side, your not by my side
Why aren't you here
So please be by my side
Please be by my side
Come into my arms baby, I know how you feel
This love for you is real
It burns inside

I know you're sorry you did me wrong But until then I'll remember You'll be back, back into my arms
