

# Judy Torres, Please Stay Tonight

You - you and I  
known each other for some time  
I've always wondered for so long  
If my feelings for you are too strong  
I've waited for this moment to tell you  
No other one can love me like you do  
Just hold my hand and say that you'll be mine  
Til the end of time

Chorus:  
Please stay tonight  
I need you and I love you so  
Please stay tonight  
I'll never ever let you go  
Please stay tonight  
I can't live without your love  
Please stay tonight  
Your the only one I'm thinking of

Tell me why must you leave (?)  
?  
To be with someone who you cared for so long (?)  
And to give it more than (?)  
I wanted you  
Believe me that's true  
No one can say I'm not crazy for you  
Just come with me  
I'll guarantee you'll stay

Chorus (2x)

I've waited for this moment to tell you  
No other one can love me like you do  
Just hold my hand and say that you'll be mine  
Til the end of time

Chorus (1x)

Give me the time to prove that I love you  
Give me the chance I'm thinking of you  
Give me tonight and I'll give you forever  
I'll love you forever, can't get enough  
(repeat)

Please stay tonight
