

# Juelz Santana, I Am Crack

[Santana talking]

W-what is this, this sound like some graveyard s\*\*\*  
well that's what the f\*\*\* they gon need  
cause I'mma bury these niggas this time around

[Verse 1]

Who better than me, you better than me  
S\*\*\* you never will see if you dead and deceased  
Keep two', lead, and the piece and I'm busting it off right  
Leave a trail of smoke like a f\*\*\*ing exhaust pipe  
Took the coke up out the stash cause they know about the stash  
Now I'm like swallow these dope up in the bags  
Coke up in the bags, yeah sown up in the bags  
I do my chicks like Ludacris blow it out your a\*\*  
I'm a mean pimp you know what I mean pimp  
Four hoers on each strip all bringing me chips  
Futuristic, so when I'm gon they gon have to do balistics  
Just to prove I'm this sick  
You n\*\*\*as need to be spank by your mami  
For ever thinking you'll be greater than I'll be  
You get that short late waist pack money  
I get that all straight a.s.a.p. money bring it here now!

[Chorus x2]

Touch the coke, touch the pot, add the soda what you got ME!  
I am what I am I be what I be and that you will see I AM CRACK!!

[Verse 2]

Who want it with I you want it with I  
I'll shoot one of ya eyes  
You'll lose one of ya eyes  
I'll jam move and slump ya  
Leave your body in ranch cuckamonga with ants moving under  
My flows so in order I can turn soap and water to ocean water and float the border  
You never will be what I forever will be  
Your tombstone never will read we buried a G nope!!  
I'm so mean and nice with the things I write  
Jesus might say Jesus Christ  
It's only rap so why yall trying to hold me back  
Like yall ain't ask for to owe me back I'M HERE!  
My peoples play and sling cocaine  
More than Billy Blanco from Carliton's Way  
So you can find me on the streets okay  
With that big f\*\*\*ing piece okay

[Chorus x2]

[Verse 3]

Too dope for this but you won't admit  
So my two's smoking spit make you choke on spit  
You ever seen a man gag and gargle  
Sound like a new born trying to ask for bottles  
They like cut it out you slacking  
But I bust it out in rapping  
Can you name a n\*\*\*a better without me busting out in laughing?  
N\*\*\*a you couldn't spit enough to get at me  
I'll stretch ya for extracurricular activity  
Forget holla for help  
I make you wanna pull ya lip over ya head and just swallow ya self  
Ya not on my level, not on my shelf  
But you can and you will be just another notch on my belt  
I'm more macing than grace is when I say s\*\*\*  
You should say amen after my name kid  
Yes this is that of greatest

You should say amen after this statement

[Chorus x2]
