

Juice, Obsession

obsession!

days go round and round
in isolation
so what's this situation
have i done something wrong
in my calculations
up and down and down
more and more frustration
so what's this situation
is there something wrong with my
obsession

and i ask my self
is there something wrong with my
obsession
there is nothing wrong
every one around got some
obsession
i can't say it more clear all that drives me alonge
is that obsession
out the road of hell
that's just myayayaya
obsession

steppin out of my
my own inversion
out of all my aberation
jumping out of my head
to see outer spaces
shouting out so loud
out of deep sentsation
do i need authorization
to live my life with my
obsession

and i ask my self
is there something wrong with my
obsession
there is nothing wrong
every one around got some
obsession
i can't say it more clear all that drives me alonge
is that obsession
out the road of hell
that's just myayayaya
