

Julee Cruise, Into The Night

now it's dark

into the night
i cry out
i cry out your name
into the night
i search out
i search out your love

night so dark
where are you?
come back in my heart
so dark
so dark

into the night
shadows fall
shadows fall so blue
i cry out
i cry out for you

night so dark
where are you
come back in my heart
so dark
so dark
so dark
