

Julia Kova, Crush

You're always on my mind and it can't be much
You're taking up my time when I feel your touch
Crush! He makes me wanna rush
How many days when I die without feeling your touch
And when you look in to my eyes I just can't get enough
Crush! He makes me wanna rush

What is happening to me
Always when you're walking by I die
Can't seem to find the word
Aimlessly I try to keep my cool why

You're always on my mind and it can't be much
You're taking up my time when I feel your touch
Crush! He makes me wanna rush
How many days when I die without feeling your touch
And when you look in to my eyes I just can't get enough
Crush! He makes me wanna rush

Spend my days, all my nights
Try to find a way to be close to you
Tell me what do you see
Could we ever be, be a "you and me";

Feel like I'm falling, in my hand you're drawing
And it makes seem always... Oohh...

You're always on my mind and it can't be much
You're taking up my time when I feel your touch
Crush! He makes me wanna rush
How many days when I die without feeling your touch
And when you look in to my eyes I just can't get enough
Crush! He makes me wanna rush

Crush! Crush!
And he makes me wanna rush, rush
Can I get love, love
I gotta cry
Crush, crush
Rush, rush
Love, love

You're always on my mind and it can't be much
You're taking up my time when I feel your touch
Crush! He makes me wanna rush
How many days when I die without feeling your touch
And when you look in to my eyes I just can't get enough
Crush! He makes me wanna rush

You're always on my mind and it can't be much
You're taking up my time when I feel your touch
Crush! He makes me wanna rush
How many days when I die without feeling your touch
And when you look in to my eyes I just can't get enough
Crush! He makes me wanna rush

You're always on my mind...
