

Julia Reeves, What I Need

I know if I just keep my distance,
you will see what you are missin,
and you'll learn no one can love you like I do.
I looked involved in conversation,
but I'm struggling with temptation.
So tonight as you walk into the room...

Chorus:

What I want is to hold you.
Cause my world with out you,
is just another lonely place to be.
What I need is to hold out,
until you have no doubt,
there's only one love for you....
and it's me.
So I'll be strong,
till you can believe.....what I need.

My impression of what love is,
comes and goes like your kisses.
Clear as day when I hold you in my arms.
Though I'll admit that your my weakness,
I'm gonna fight these feelings,
until you can promise me your heart.

Chorus:

What I want is to hold you.
Cause my world with out you,
is just another lonely place to be.
What I need is to hold out,
until you have no doubt,
there's only one love for you....
and it's me.
So I'll be strong,
till you can believe.....what I need.

What I need is to hold out,
until you have no doubt,
there's only one love for you....
and it's me.
So I'll be strong,
till you can believe.....what I need.

What I need....
