

# Julie Doiron, Tonight, We Sleep

didn't mean to wake you up  
guess I couldn't sleep  
tried to sleep out on the couch  
but that's not where I want to be

and I'm so tired  
it's late  
and you're so tired  
I can't wait

wanted to explain something  
I'm not quite sure what that was  
and when you finally talked to me  
I'd forgotten what was on my mind

and I'm so tired  
it's late  
and you're so tired  
I can't wait
