

Julie Roberts, You Ain't Down Home

You know all the right people
You wear all of the right clothes
You got a snappy little sports car all your own
You got the cool conversation
On your high tech telephone
But you got one little problem baby,
You ain't down home

Chorus

You ain't down home
Where the people got their feet on the ground
Down home where there's plenty of love to go 'round
You got the cool conversation
On your high tech telephone
But you got one little problem baby,
You ain't down home

You got a brand new jacuzzi
All your credit cards are gold
There ain't a high class place in town
Where you ain't known
You make it all look impressive,
Yeah you put on quite a show
But you got one little problem, baby
You ain't down home

Chorus

You ain't down home
Where the people got their feet on the ground
Down home where there's plenty of love to go 'round
You make it all look impressive,
Yeah you put on quite a show
But you got one little problem baby,
You ain't down home

You make it all look impressive,
Yeah when you're showin all your dough
But you've got one little problem baby,
You ain't down home
There's just one little problem baby,
You ain't down home
