

Jump, Made It Fine

A song for when you go
To keep you company
A song for when you go
Far away from me

A song for when you go
To California
West of the city lights
Across America
A song for when you go
Out on the interstate
Under the powerlines

Call me and I'll know
That you made it,
You made it fine
Call me and I'll know
That you made it,
Call me,
And I'll know
That you made it fine

A song for when you go
To keep you company
A song for when you go
So you'll think of me

A song for when you go
Beyond the satellites
Under the cooling town
On such a starry night
A song for when you go
Cause even shatterproof
Glass on the Nine Exchange

You made it fine
You made it fine
You made it fine

And call me and I'll know
That you made it,
You made it fine
Call me and I'll know
That you made it,
Call me,
And I'll know
That you made it fine

I see your image
From time to time
Under the streetlight
Caught in the papers
Blowing away
In phosphorescence
Here's a song before you go

You made it fine
You made it fine
You made it fine

Call me and I'll know
That you made it,
You made it fine
Call me and I'll know

That you made it,
Call me,
And I'll know
That you made it fine

Call me and I'll know
That you made it,
You made it fine
Call me and I'll know
That you made it,
Call me,
And I'll know
That you made it fine
