Jump5, Just A Dream

When I look in your eyes I see a whole different sky Like I've never seen before And when I hear your voice It's like a song that I can Listen to o', over again It's so crazy how you make

It's so crazy how you make me go crazy

Every time that I'm near you Cause you're just a dream

This is my reality Totally insanity

If I could be in your dream

All I wanna do is be with you be with you

You're just a dream

Just a dream

When I picture the world It takes me to the sun

I think about the way you smile

And the words that you say

Always seem to change

The world that I've been living in

It's so crazy how you make me go crazy

Every time that I'm near you Cause you're just a dream

This is my reality Totally insanity

If I could be in your dream

All I wanna do is be with you be with you

You're just a dream

Just a dream

You're just a dream Just a dream yeah

More than my imagination could ever see

You're just a dream
If I could be with you
You're just a dream

This is my reality

Totally insanity

If I could be in your dream

All I wanna do is be with you be with you

Cause You're just a dream

This is my reality Totally insanity

If I could be in your dream

All I wanna do is be with you be with you

Be with you

You're just a dream

Oh whoa you're just a dream

Just a dream
