

# Jung Kook, Standing Next to You

Standing next to you

Play me slow  
Push up on this funk and give me miracles  
(Let ya body know)  
Make it known  
How we left and right is somethin' we control  
(You already know)

You know that all night long we rock to this  
Screamin', I testify this lovin'  
All night long, we flock to this  
Screamin', I testify that  
We'll survive the test of time  
They can't deny our love  
They can't divide us  
We'll survive the test of time  
I promise I'll be right here

Standing next to you  
Standing in the fire next to you, oh  
You know it's deeper than the rain  
It's deeper than the pain  
When it's deep like DNA  
Somethin' they can't take away, ayy  
Take-take-take-take-take-take off

Standing next to you  
Standing next to you (You)  
Standing next to you

Afterglow  
Leave ya body golden like the sun and the moon  
(You already know)

You know that all night long we rock to this (Oh)  
Screamin', I testify this lovin'  
All night long, we flock to this (All night long)  
Screamin', I testify that  
We'll survive the test of time  
They can't deny our love  
They can't divide us  
We'll survive the test of time  
I swear that I'll be right here

Standing next to you (Next to you)  
Standing in the fire next to you, oh (Next to you)  
You know it's deeper than the rain  
It's deeper than the pain  
When it's deep like DNA  
Somethin' they can't take away, ayy  
Take-take-take-take-take-take off

Standing next to you  
(Standing next to you)  
Standing next to you  
(Standing next to you, standing next to you)  
Standing next to you, oh  
(Standing next to you, standing next to you)  
Hey

(Standing next to you, standing next to you)  
Standing next to you  
(Standing next to you)

Bass and drums

Ooh

Woo

Standing next to you
