[Akil]  
Yo, my pleasure principle from the streets of South Central  
Ghetto hip-hop, nonstop fundamental  
Urban curb servin', vocabulary surging  
Rebel with the turban and the street corner sermon  
I keep it working for certain, close curtains  
Renegade bought up a troop when I'm dispursing  
That body rock moving, ghetto baby music  
We eat together with the inner city coolness

[Chali 2na]  
Yo (Who's this?) Slicing a rhyme in square bits  
Burning through open skin like newly prepared grits  
It's 2na Fish, I'm bringing the bad news  
And changing your bathroom if you thinking that cash rules  
Oooh, pumpernickle blow words like snot speckles  
When shots echo, some duck and hide like Doc Jeckyl  
Like Don Rickles, I'm kicking rhymes that stop heckles  
Correcting all them bumbaclot specials

[Zaakir]  
Yeah, I got my mind on my money for those that comprehend  
And my money on whatever I think I look fresh in  
Questions, is he stepping authentic?  
Controller of the panic, break a senate lieutenant  
Spit it, yo, despite your critic comments  
Knowing it ain't a hotter verse than Zaakir Mohammed  
Whether last or first, or bottom or top  
Now is it "Stop hip-hop" or "Hip-hop don't stop"?

[Marc 7even]  
You need to protect your neck  
You the kind of brother who be chasing checks  
Me and my crew crash through and get nuff respect  
Basic bet takers I'm beyond your average thinker  
Break and MC down, like my name was Dr. Shriner  
Passion fake MC's, wearing mink MC's  
On-the-brink MC's, you need to think MC's  
Bout to sink MC's, don't even speak MC's  
Cause half the shit you kicking sounding weak MC's

Yo, it goes one, two, Jurassic Crew  
What we bout to do, brothers have no clue  
Three, four, tear down the door  
And give the party people what they came here for, ahh

[Zaakir]  
I razor sharp with mindset, sunset til sun  
And I admit, I used to bite people's shit when I was young

Back in 83rd, before my style was preferred  
Now my connectionw with the word is preferred  
Primo, my AC, 310  
The first confidential, inscribed my initial  
The Z double A K-I and R  
Submerge in submarine words near and far  
Cause I'm too hot to handle, too cold to freeze  
And I'm a diss any nigga that sounds like me

[Akil]

Yo yo, breeze through the trees, feel the flavor at ease  
Degrees of melodies, typewriter MC's  
They on their Q's and P's withing my vicinity  
Department of Correctional Rhyme Ability  
Keep the biters on lock, rock no silk  
Still shock, rhyme around the clock

[Marc 7even]

You schmucks is out of luck, I'm ready to run amuck

[Akil]

Ayo I'm lampin, I'm lampin, I'm cold stone lampin  
High pitch, beat drumsticks like Lionel Hampton  
The champion, fly shit, the anthem  
5'11" with dark skin and tantrum  
Handsome never, not even as a kid  
The girls used to say "Oh his nose is too big"

[Chali 2na]

Yo, you'll get bruised, kid, ghetto blues, you'll never refuse shit  
The show's good, pinching MC's like rosewood  
I'm shrinking you rap characters into die-cast minitures  
I'll blast ten of you while my rhymes while my rhymes harass senators  
Through TV monitors, brains and glass dinner jaws  
Verbal vinegar for you biters down at the salad bar  
The combat that's making your mom mad  
I'm feeling a congrat for burning his mom bad
