

Jurga, 5th Season

Let's talk a bit:

days, midnight, love and hate, attention, silence, pain, heart, ice-cube, coffee, crowd, lonely, abandon

Again: days, midnight, love and hate, attention, silence, pain, heart, ice-cube

I have no eyes
I cannot see
What's wrong with You
With You and me

I turn the lights on
With non-existent switch
Wake-up, it's time
For last and final twitch

I was blind like a woman can be
I didn't see when You crept into my night-life
I'm fed up
Your time is up
Don't lie
Lay down Your arms
It's time for a new beginning
The rules have changed.
The rules have changed

My time is in my hands
I have a letter I never sent You
With words ice-frozen
My frozen hands, my thoughts, my mind and my body.

I was blind like a woman can be
I didn't see when You crept into my night-life
I'm fed up
Your time is up
Don't lie
Lay down Your arms
It's time for a new beginning
New beginning

I want to go home,
See a moment,
Believe in beauty,
Enjoy the silence
And love...
I want to go home, let me go home now...

I was blind...
