

Just Off Turner, The Long Walk Back

A few thoughts for the new arrivals
Key points to ensure survival
Take a minute to enjoy the buzz
And take a picture to remember how it was

'Cuz big dreams and beautiful faces
Tend to dwell in unfamiliar places
Pay attention while you're taking it in
You're gonna need it when you're ready to begin

The long back to the middle of nowhere
It's hard to act like you really don't care
Your bags are packed so how do you know where to go?
I don't know...

Well, I get a feeling you're gonna like it where you are
(No matter where you are)
I get a feeling you're gonna like it where you are

You used to talk about finding a purpose
Believe me you ain't even scratching the surface
A little trouble's always easy to find
Before you know it you're in trouble all of the time

Well, God loves all of his children
Even if you're not one in a million
I know you're not a little kid anymore
But keep the faith 'cuz you're almost ready for

The long walk to the beat of a new tune
But don't hold back if you feel like it's too soon
Your bags are packed so act like you know where to go
And just go

'Cuz I get a feeling you're gonna like it where you are
(No matter where you are)
Oh, I get a feeling you're gonna like it where you are
(No matter where you are)
Oh, I get a feeling you'll keep singing when you're gone

I get a feeling you're gonna like it where you are
(No matter where you are)
Oh, I get a feeling you're gonna like it where you are
(No matter where you are)
So, keep on singing while you're gone
'Cuz it's a long walk home
