

Justifide, Why

Sometime I sit around and wonder why
Why you put up with all of this chaos
when you could end this sinful world in one second
In one second you could end this sinful world

(Chorus)

Your are the one and only God
We lift our voices in praise to your name
You stand high above anything we could imagine

Sometimes I sit around and wonder why
Why you still love me when I do you wrong
And I could never do anything to make you hate me
Even if I tried, Even if I tried

(Chorus)

In that time, in that place
Well I was changed
In that time, in that place
Well I was changed
