

Justin Bieber, Common Denominator

Just a fraction of your love fills the air
And I fall in love with you
All over again, oohh
You're the light that faced the sun
In my world
I'd face a thousand years of pain
For my girl
Out of all the things in life
That I could fear
The only thing that would hurt me
Is if you weren't here

I don't wanna go back
To just being one half of the equation
Do you understand what I'm sayin'?

Girl, without you I'm lost
Can't fix this compass at heart
Between me and love
You're the common denominator, oh, oh, ohh, oh
You're the common denominator, oh, yeah, woah

Before your love was low
Playin' girls was my height, aye
You chase the game that would put
My cot in the side
Broken heart rise up to say
Love is a lie
You and I will stand
To be multiplied, yeah

Out of all the things in life
That I could fear
The only thing that would hurt me
Is if you weren't here, here, here, yeah

I don't wanna go back
To just being one half of the equation
Do you understand what I'm sayin'??
I'm lost
Can't fix this compass at heart
Between me and love
You're the common denominator, oh, oh, ohh, oh
You're the common denominator, oh, yeah, woah

I can't imagine a life
Without your touch
Every kiss that you give
It fills me up
And to all the heart aching
Jealous females hate it
I'ma hold it down for you

For you, woah, oh woah
Common denominator
I don't wanna go back
Half of the equation, woah, woah, yeah
Common denominator
Oh, oh, oh, oh
Common denominator
Oh, yeah, woah

Just a fraction of your love fills the air
And I fall in love with you all over again, yeah
