Justin Bieber, Hard 2 Face Reality (& Poo Bear)

Sometimes it's hard to face reality Even though you might get mad at me Sometimes it's hard to face reality

Don't be afraid to stand alone Don't be afraid to stand outside the door alone I know it's hard away from home It ain't easy all alone Relationships over the phone Talkin' to your significant other all night long

Sometimes it's hard to face reality Even though you might get mad at me Sometimes it's hard to face reality

Should've been adjusted to my life
Had the opportunity to stay and wait for the last time
Now you're standin' right in front of me
It is mean and though, that life
Try to protect your feelins
Givin' in between the lines
Hope your heart is totally healed and

Sometimes it's hard to face reality Even though you might get mad at me Sometimes it's hard to face reality
