

Justin Timberlake, Fuckin' Up The Disco

Hey baby, listen, I got this great new J.T. album
And if you got a turntable, maybe we can get it on
Get it on
Get it on

Say no more, yeah, let's go
You and me when we fuckin' up the disco
Ooh, what a scene and we both know
Top line on that body and she feel like a hit though
But the groove's on it retro
Cold
Somebody get a flick though
It don't make sense though, really though
You and me when we fucking up the

Ooh, looking like a whole scandal
Walked in with all of that looking like all I could handle
You looking for worship, baby
Well, hey I got a mantle
Got my Gucci Crocs on right now
But we can slide like sandals
Let me flip you like a sample

'Cause I be doing it right, I be doing it right, ooh
You know how you get when the bass drops and your body pops, ooh
I know how you get when you're peaking and your favorite record drops, drops
Well this might be one of them and you know when the chemistry locks
When you wanna take it from the top
We can take it off the top

All you gotta do is free your mind
And watch your body start to follow suit
So don't you try to play it cool
'Cause I know the sign when you make it wind and I'm like

Say no more, yeah, let's go
You and me when we fuckin' up the disco
Ooh, what a scene and we both know
Top line on that body and she feel like a hit though
But the groove's on it retro
Cold
Somebody get a flick though
It don't make sense though, really though
You and me when we fuckin' up the

Sweat dripping when the rush feel like an attack
You a whole bag, let it all unpack
Run your nine-inch nails all over my back
Yeah, I like that, I like that
Put your cheek bones all the way into my neck
Take a bite on the side, let your tongue get wet
You the password, I'ma hit reset
That's a promise, not a threat

'Cause I be doing it right, I be doing it right, ooh
You know how you get when the bass drops and your body pops, ooh
I know how you get when you're peaking and your favorite record drops, drops
Well, this might be one of them and you know when the chemistry locks
When you wanna take it from the top
We can take it off the top

Ooh, all you gotta do is free your mind
And watch your body start to follow suit
So don't you try to play it cool

'Cause I know the sign when you make it wind and I'm like

Say no more, yeah, let's go
You and me when we fuckin' up the disco
What a scene and we both know
Top line on that body and she feel like a hit though
But the groove's on it retro
Cold
Somebody get a flick though
It don't make sense though, really though
You and me when we fuckin' up the disco, disco
You and me when we fuckin' up the disco
Bring that over here

Ooh, all you gotta do is free your mind
And watch your body start to follow suit
So don't you try to play it cool
Don't you try to play it cool

Come on
Hey, yeah
All you gotta do is free your mind
All you gotta do is free your mind
And watch your body start to follow suit
Watch your body start to follow suit
So don't you try to play it cool, don't you try to play it cool

Ooh, I know you feel the rush when it's coming on
There ain't no stopping when we peaking, what we on?
Ooh, what we on?
Ooh, what we on?
