## Justin Timberlake, Liar (feat. Fireboy DML)

Day and night, running 'round in my head (Ooh-ooh) And you do it without breaking a sweat (Ooh-ooh) Got the kind of love you know I can't get (Ooh-ooh) You know I can't get, you know I can't

All my emotions, you know You take the lead and I will follow where you go All of the power you hold, yeah You take it away, I've got no love So bring it back, bring it back, 'cause

Day and night, running 'round in my head (Ooh-ooh) And you do it without breaking a sweat (Mmm) Got the kind of love you know I can't get (Ooh-ooh) From anybody else, body else, yeah

Come on over, help me mess up this bed (Ooh-ooh) Don't act like you don't know what I meant (Ooh-ooh) Make the kind of love you know we can't get (Ooh-ooh) From anybody else, body else, yeah

Could say I don't love you, but I'd be a liar I know that you know that you're my only desire I can say that I don't care, but I'd be a liar Even when I'm coldest, you still set me on fire

Day and night, running 'round in my head (Ooh-ooh) And you do it without breaking a sweat (Ooh-ooh) Got the kind of love you know I can't get (Ooh-ooh) You know I can't get, you know I can't

Yeepa oh, I'm in danger oh
Bring your body, make me spend my paper oh
Tell you things that I cannot say loud
Got me thinking 'bout it right now
Is it the body or is it the face (Face)
That got me feeling like I wanna stay? (Stay)
I'm tryna hold you like a conversation
Don't you ever try to get away, yay, yay, yay, yay

Come on over, help me mess up this bed Don't act like you don't know what I meant Make the kind of love we know we can't get From anybody else, anybody else
