

Justincase, Any Day Now

There's a girl that I want to be mine
I wanna have her all the time
I'm gunna make her see what's here
So she will always be near
We laugh about Snicker bars
She's gunna be a TV star
And outta style is just her type
Well, that's how I could be right

And any day now
In some old fashioned way
I'm gunna let her know
Her profile makes me smile
And any day now
In some old fashioned way
I'm gunna let her know
Her profie makes me smile

She likes to shop and she loves my ring
One day I'm gunna take her skiing
Dontcha know that we can always have fun
If it means that we have to run
She can't help but say things twice
Well, I can't help but say things wise
I assume she likes to read 'em
Loves listening to Al Pachino

And any day now
In some old fashioned way
I'm gunna let her know
Her profile makes me smile
And any day now
In some old fashioned way
I'm gunna let her know
Her profie makes me smile

And any day now
In some old fashioned way
I'm gunna let her know

And any day now
In some old fashioned way
I'm gunna let her know
Her profile makes me

Now that you've heard this song
I hope you think of me
And when you hear this song
I hope it makes you see
The one who sings this song
Is only here to be
A short supply, a short supply
Of what you need

And any day now
In some old fashioned way
I'm gunna let her know
Her profile makes me smile
And any day now
In some old fashioned way
I'm gunna let her know
That i will make her smile
Yah i will make her smile
I'm gunna make her smile

Oh please won't you let me make you
