

Justincase, Face Of An Angel

Please sweet lady lend me your smile
So that I might wrap it up and keep it with me forever
And if that's not too much to ask
Then how about just one more thing... the rest of you

Chorus:

The face of an angel is walking backwards from me
With departure in one hand and a penny in the other
The face of an angel is walking backwards from me
And sorrow is all I see
(hurt)
(love)

Please wrap around me like you've done before
When you hold me so tight I can feel it
Coming right through my pores
And if that's not too much to ask
Then how about just one more thing... your hand on mine

Chorus

We were kissing toes in silence
We were kissing toes in the dark
We were kissing toes in silence
But I could sleep now and never wake

Chorus

Still while we go our ways let's keep attached
Being careful not to break this shield that we have made
And if that's not too much to ask
Then how about one more thing... just love me
The face of an angel is loving me
