

# Justincase, Feel

You're gone, and I don't wanna know, what went wrong, no  
Cause somewhere the words have really helped me sleep  
And honest, the tongue that tells me how you mean  
Is anyone out there? It feels like I'm holding on  
Is anyone out there? yeah, yeah  
And I was scared to lose you, but now I'm fine without you  
Just see if I've, just see if I flinch  
How does it feel? How does it feel? How does it feel to know you're on your own?  
On your own, own, without me on your own  
I filled the space you left with something else, more real  
The smile you faked made me stay  
Is anyone out there? It feels like somethings wrong  
Is anyone out there? yeah, yeah  
And I was scared to lose you, but now I'm fine without you  
Just see if I've, just see if I flinch  
How does it feel? How does it feel? How does it feel to know you're on your own?  
On your own, own, without me on your own  
And its a long road without you  
But its the right way to move on  
And its a long way to the top of nothin', yeah  
I feel lovin, you're halfway there  
How does it feel? How does it feel? How does it feel to know you're on your own?  
On your own, own, without me on your own  
Feel, how does it feel, how does it feel to know you're on your own  
(Feel, Feel, Feel)  
so look the way your lips... you're the only one that likes to play it all alone  
so low, you get so low  
i just want to be there when you're everywhere, disappear  
In the back of my mind, I find that I'm fine, I'm fine, and I'm finally all right  
Alone and you'll be alone, there's never gonna be a time when you find your peace of mind  
(Feel, Feel, Feel)
