

# JVKE, this is what winter feels like

I hope you leave  
And don't come back  
Cuz I'm cold  
Baby I'm cold  
Baby I'm

Still cold  
Cold like I'm seeing my breath  
After the season you left  
Baby I'm stuck in my ways  
They say the coldest hearts are hardest to break  
That's probably how I ended up in this place  
With no emotion left to process the pain  
It's better this way

Too numb to feel the burn  
Too numb to let it hurt  
I stare at my reflection  
I don't recognize myself

Too numb to feel the pain  
Too numb to feel a thing  
You watched me bleed  
I hope you leave  
And don't come back

Cuz I'm cold  
Baby I'm cold

I hope you leave  
And don't come back  
Cuz I'm

Call me on the phone but I'm outta range  
When I'm all up in the mountain ranges  
And I know you won't put this on your playlist  
Show your friends all mad I'm keeping you nameless  
I was down bad for you from the jump  
Thought you the one  
Now I gotta regain my trust  
Matter fact I don't trust no one  
Left me in the dust  
Got me outta touch with emotions, yeah

Too numb to feel the pain (Too numb to feel the pain)  
Too numb to feel a thing  
You watched me bleed  
I hope you leave  
And don't come back

Cuz I'm cold  
I hope you leave  
And don't come back  
Cuz I'm cold  
You watched me freeze  
And turned your back on me

So don't hit my line  
Don't waste your time  
I'm too far gone  
Yeah I swear that I'm cold  
I hope you leave  
And don't come back  
Cuz I'm cold

I hope you leave  
And don't come back  
Cuz I'm cold

I hope you leave  
And don't come back  
Cuz I'm-
