K-Ci & JoJo, How Long

I thought I left, long recall I wanted to ask you You use to hug and there was no feeling beyond that Do you remember back in the days We use to laugh & amp; play all night long And if you do (If you do) Tell me (Tell me) how long, how long {Chorus} How long do you need time away Hopefully not long You'll stay away And I pray that everything's okay Tell me I wanna know how long How long will you You'll be away Now it hurts me so Thinking about her At night my bed is cold And lonely without her Can't explain what heaven knows I'm crazy about her If she come back she don't know I said she really really don't know So please my lady, just how long {Chorus} You'll be away [Ad libs throughout] I miss you so (I miss you so) Coming back someday Coming back someday Coming back someday

Coming back oneday Coming back oneday Coming back oneday

{Chorus}
