

# k.d. lang, Full Moon Full Of Love

Coyote, oh coyote  
Can you tell me why  
Everytime the big moon shines  
You sit right down and cry  
He says 'it's not because i'm sad  
That i sing all night long,  
I'm looking for someone to love  
And this is my love song'

Oooooooooooooooooo,  
Oh i go crazy when that  
Mooooooooooooooooon shines above  
Oooooooooooooooooo  
Won't someone save me  
From that full moon full of love

Baby, oh sweet baby  
Can you explain this  
Everytime the big moon shines  
I finally get a kiss  
You said it's just the moonbeams  
That make you do these things  
Well, i think that i'll just sit right here  
And let that coyote sing

OOOOOOOOoooooooooooo  
Oh i go crazy when that  
Mooooooooooooooooon shines above  
Oooooooooooooooooo  
Won't someone save me  
From that full moon full of love
