

k.d. lang, Full Moon Full Of Love

Coyote, oh coyote
Can you tell me why
Everytime the big moon shines
You sit right down and cry
He says 'it's not because i'm sad
That i sing all night long,
I'm looking for someone to love
And this is my love song'

Oooooooooooooo,
Oh i go crazy when that
Moooooooooooooon shines above
Oooooooooooooo
Won't someone save me
From that full moon full of love

Baby, oh sweet baby
Can you explain this
Everytime the big moon shines
I finally get a kiss
You said it's just the moonbeams
That make you do these things
Well, i think that i'll just sit right here
And let that coyote sing

Oooooooooooooo
Oh i go crazy when that
Moooooooooooooon shines above
Oooooooooooooo
Won't someone save me
From that full moon full of love
