

k.d. lang, Only Love

(Lang)

You know it's true
There's not much you can do
But just try and ride it through

Let love carry you
Only love
Can bring you down

Only love
Brings you back around
Take this advice...

These words from the wise
To know of love's sacrifice...
Is a truth of living life

And only love
Can bring you down
Only love
Brings you back around
With every drop of life inside us

With every heart we've left behind us
Everywhere you'll find
It's only love
Brings you back around
