

# K's Choice, Now Is Mine

My past, my future, my disease  
Perhaps collapse to make me seize  
A moment  
Just a breeze

Grateful, humble I allow  
These words to be the past somehow  
I wonder  
Am I here now

Am I here now  
I feel hear see and it confuses me  
I'm wrong  
I am here now  
Is mine I'll take it  
All around the world

Take my future past, it's fine  
But now is mine

My precious present will you bloom  
To make this fourth dimension womb  
Stop asking  
Stop asking why

All I know is all I am  
Will never fully understand my breathing  
I try  
How I try to feel hear see and it confuses me  
I'm wrong  
I am here now  
Is mine I'll take it  
All around the world

Take my future past, it's fine  
But now is mine
