

K's Choice, Now Is Mine

My past, my future, my disease
Perhaps collapse to make me seize
A moment
Just a breeze

Grateful, humble I allow
These words to be the past somehow
I wonder
Am I here now

Am I here now
I feel hear see and it confuses me
I'm wrong
I am here now
Is mine I'll take it
All around the world

Take my future past, it's fine
But now is mine

My precious present will you bloom
To make this fourth dimension womb
Stop asking
Stop asking why

All I know is all I am
Will never fully understand my breathing
I try
How I try to feel hear see and it confuses me
I'm wrong
I am here now
Is mine I'll take it
All around the world

Take my future past, it's fine
But now is mine
