

K's Choice, Sail You

I took your life to town
I turned it upside down
about to lose a fight
turning daylight into night

I always wanted to sail you like water
please sail me too
I want to sail you, I do

It looks alright to me
to lose our sight and see
how everything once fast
turns into what will last

I always wanted to sail you like water
please sail me too
I want to sail you, I do

And when we reach the sun
I'll burn the boat we're on
what a sight to see
as I sail you and you sail me

If anything goes wrong
when rattlesnakes make fun
of memories, I tried
to sail you when I died

I always wanted to sail you like water
please sail me too
I want to sail you, I do
I always wanted to sail you like water
please sail me too
I want to sail you
I want to sail you, I do
