

# Kaiser Chiefs, Admire You

You said that stranger things have happened  
I don't know why you're laughing  
I wish I'd never asked

There must be something in the waters  
That's making it much stronger  
It's building up to life

Do you admire me like I admire you?  
Do you admire me like I admire you?

Lying low, it might be cause your easy  
Or just because you're near to me  
Or maybe cause you're new

There must be a combination of everything  
Because I haven't seen a lot of things  
As interesting as you

Do you admire me like I admire you?  
Do you admire me like I admire you?

And I thought you were a nervous wreck  
And it turned out that you were  
I heard you were a bag of nerves  
And it turned out that you were  
Turned out that you were  
Turned out that you were

I thought when you said you needed me  
You meant that you needed me  
You just need me in the head

Do you admire me like I admire you?  
Do you admire me like I admire you?

And I thought you were a nervous wreck  
And it turned out that you were  
I heard you were a bag of nerves  
And it turned out that you were  
Turned out that you were  
Turned out that you were

Do you admire me like I admire you?  
Do you admire me like I admire you?

And I thought you were a nervous wreck  
And it turned out that you were  
I heard you were a bag of nerves  
And it turned out that you were  
Turned out that you were  
Turned out that you were
