Kaiser Chiefs, Feeling Alright

Phone in dead for work again I want to see you there Feel you there for me I know we're going out in style

We take our places in a line And when the lights go down The city's mine I got this

Feeling alright
I'm yours and your mine
Feeling alright
Don't be scared to fight
Feeling alright
I'm yours tonight
Feeling alright
Don't be scared to fight

No-one you've ever loved is ever dead no They're always in your head In your heart dancing I know I want to see them all tonight

We turn our back against the style We're always dancing, turning, spinning, my god! We got this

Feeling alright
I'm yours and you're mine
Feeling alright
Don't be scared to fight
Feeling alright
I'm yours tonight
Feeling alright
Don't be scared to fight

Now we've got to dancing all night The rest is up to you Now we've got to dancing all night Got you dancing all night The rest is up to you

I'm so proud of this big ass crowd Singing real loud Now you know what to do

Feeling alright
I'm yours and you're mine
Feeling alright
Don't be scared to fight
Feeling alright
I'm yours tonight
Feeling alright
Don't be scared to fight
